Dear Robert:

We are pleased to enclose your original Answer Sheets along with an **Annual Statistical Report** for your county, which highlights the profile of the juveniles who were referred by your office to the Y.E.S. Program.

The Summary information on the first page will help you to quickly identify:

- o Percentage of youth who successfully completed the Y.E.S. Program.
- o Percentage of youth who did not complete the program.
- o Percentage of youth classified "at risk" who may need added support.

The detailed information on the following pages offers the opportunity for you to review and study the Personal Profile, Activity Profile and Perceptions and Feelings of youth you referred to the Y.E.S. Program, with a comparison to juvenile shoplifting offenders in other counties across the nation.

Please feel free to circulate this report to others who may have an interest in this statistical data.

We are delighted to be able to provide this service and hope you find it useful.

Sincerely,

Renee Sirianni
