July 1, 2006 to June 30, 2007

**BOARD OF VENANGO COUNTY COMMISSIONERS**

*Susan M. Smith, Chairperson*  
*Larry E. Horn*  
*Gary R. Hutchison*

**EXECUTIVE COMMISSION MEMBERSHIP FOR 2006-2007**

Raymond Feroz, Chairperson  
Barbara McCombie, Vice Chairperson  
H. William White (President Judge), Secretary  
District Judge Robert Boyer  
Christine Breakstone  
Richard Broadhead  
Timothy Daniels  
District Judge Douglas Dinberg  
Mary "Dee Dee" Douth  
Judith Grandelis  
William "Bill" Hankins  
Johanna Lamberson  
Margaret Millholen  
Susan Reitz  
Susan M. Smith – Ex-Officio

**VENANGO COUNTY SUBSTANCE ABUSE PROGRAM**

Bonnie S. Summers, Administrator

*Many people have heard the story of the starfish and the boy who was walking on the beach and picking up one starfish at a time and putting it back into the water to continue to live. When asked why he did this when he could only help one at a time, when there were so many that needed to be helped, he said that it made a difference to the ones that he was able to help. Simple, but powerful.*

*Today we are on a fast pace in order to get everything done we think we need to get completed, to be at the places we think we need to be, to receive the information we think we need and to communicate to those we think need to hear from us. It can become very stressful and chaotic until we return to focus again on keeping it simple.*

*The Substance Abuse Program is about helping one person at a time, one day at a time, by doing the best that we can. We strive to put together a service system that makes a difference to one person at a time.*

*I am proud of our achievements in Venango County in being involved in the community so we are there to find those “starfish” who need help and then helping them. This is done through quality, supportive, and accessible prevention, intervention and treatment services in our community.*

*Please take a minute to review the accomplishments of the Venango County Substance Abuse service system. If you see something you like or have any suggestions, let me know and together we can make that difference.*

*Looking forward to a great year,*

*Bonnie*

## **A. ACCOMPLISHMENTS:**

\*\*\*\*\***IMMEDIATE ACCESS** – As screening determines the need for emergency/immediate treatment needs, this office has maintained its commitment to provide these to people requiring timely services. Individuals requiring urgent treatment such as detoxification services were either seen within 24 hours or referred to a treatment facility.

\*\*\*\*\***INTEGRATED CHILDREN SERVICES – FACT** – The County Human Service agencies have worked together to provide an integrated approach to services, particularly children’s services. Staff from Children and Youth Services, Mental Health and Substance Abuse met throughout the year to develop an integrated Family Assertive Community Treatment model of intensive treatment. These program services are provided at the discretion of the family members in the home or at a site of their choice.

\*\*\*\*\***JAIL TREATMENT PROGRAM** – Substance Abuse assessments for treatment are provided upon incarceration and at the request of the client, courts, attorneys, etc. Treatment can then be provided in the jail as well as clients can be sentenced to intensive or residential treatment to reduce incarceration time and to treat the individual’s alcohol and/or other drug abuse/addiction. This also is a strategy to reduce recidivism and promote a productive lifestyle.

\*\*\*\*\***HEALTH CHOICES** – The County of Venango has joined with two other counties, Crawford and Mercer to become a partnership in the management of the Medical Assistance Managed Care program for behavioral health services. The partnership is called the Northwest Behavioral Health Partnership (NWBHP). During the past nine years, the Substance Abuse Program has worked with MH/MR to develop behavioral health program services and rates that provide increased accessibility, quality, efficiency and effectiveness to residents through locally managed operations. The NWBHP has contracted with the Southwest Behavioral Health Program to provide management services to accomplish the goals of managed care. Value Behavioral Health was selected as the managed care organization that could best provide our residents with managed behavioral health care. This began July 1, 2007.

\*\*\*\*\***EARLY HEAD START PROGRAM FOR FAMILIES WHO ARE EXPERIENCING SUBSTANCE ABUSE PROBLEMS** – Young families were provided parenting services that included prevention and intervention of alcohol and other drug use/abuse. This program is integrated into a family based program to provide a holistic approach.

\*\*\*\*\***TOBACCO PREVENTION PROGRAM** – Tobacco use begins at age 12 and 13 for youths in Venango County. Almost 2 out of 10 tenth graders are daily smokers. One out of three babies are born to mothers who smoked during pregnancy. The prevention program developed a plan to provide prevention and cessation services to these target groups. Local funds were made available to develop programs as incentives to stop tobacco use in target populations especially pregnant women and mothers with young children. County-wide compliance checks by the Oil City Police Department were done three times at almost every store in the county. Retail offenses were very low at 14 out of 165 checked.

\*\*\*\*\*TOBACCO-FREE DIAPER INCENTIVE PROGRAM – The Venango County Substance Abuse Program, in partnership with Franklin Women’s Health Associates, Adagio Health, and the Venango County State Health Center was recently awarded a grant of \$10,000 from the Elizabeth S. Black Charitable Trust to provide a Tobacco-Free Diaper Incentive Program in Venango County. In 2005, 31.8% of women in Venango County who gave birth reported that they smoked during their pregnancy. This is alarmingly higher than the state average of 17.9%. This program helps address this serious issue by offering free diapers to pregnant women who quit smoking. This program works by utilizing a Carbon Monoxide Monitor to test the patients each month. After successfully completing this simple breath test to verify that they are smoke-free, they are given a voucher/gift card for \$25 to be used for the purchase of diapers. Each participant in the program is able to receive a maximum of 12 vouchers.

\*\*\*\*\*VENANGO COUNTY STUDENT AWARDED BUSTED!’S STUDENT ADVOCATE OF THE YEAR AWARD- Jessica Scouten, a junior at Rocky Grove Junior/Senior High School was awarded the 2006 BUSTED! Student Advocate of the Year award. Jessica is the first Pennsylvania youth to win this award. The award was presented to Jessica by Ron Radaker of Clarion University Health Science Education Center during BUSTED!’s summer camp. Youth nominated for this award were judged on participation in BUSTED! events at the local, regional and statewide levels. Each youth’s leadership skills were also considered. Nominations for this award were solicited from BUSTED! adult facilitator’s.

\*\*\*\*\*FETAL ALCOHOL SYNDROME AWARENESS DAY (FASD) – People around the world began observing International Fetal Alcohol Syndrome Awareness Day on September 9 each year beginning in 1999, in order that on the ninth day of the ninth month of the year, the world will remember that during the nine months of pregnancy no amount of alcohol consumption can be considered safe. Activities for FASD included distribution of shirts to taverns and beer distributors, provided posters to health care facilities and schools, radio public service announcements and a radio interview. A proclamation declaring September 9<sup>th</sup> as FAS Awareness Day was also signed by the Venango County Commissioners.

\*\*\*\*\*PREVENTION OF UNDERAGE DRINKING TASK FORCE (PUD) - One out of four of the sixth graders, one out of two of the eighth graders and three out of four of the tenth graders in Venango County have used alcohol. As part of our local efforts to reduce the number of our youth who begin their use of alcohol during their preteen and teenage years, a community awareness campaign was developed. There is a problem and there are solutions. In order to get these messages out, they were placed on placemats at various restaurants throughout the county. The placemats featured posters that were drawn by local elementary school students about the prevention of alcohol use by youth. Around the borders of the posters, ads were placed. A community group continues to meet bi-monthly to direct these community-wide efforts.

## **B. CHALLENGES:**

\*\*\*\*\*INADEQUATE FUNDING for services and increased demand for treatment has created a very difficult situation in the provision of treatment services that can address the disease. Fee for service medical assistance does not cover non-hospital residential services, partial hospitalization or intensive outpatient services. The county allocation from the Department of Public Welfare and the Department of Health is used to fund those who do not have any third party coverage as well as those covered by medical assistance if the service is not eligible. Health Choices will hopefully change this and allow payment to those covered by Medical assistance for all levels of treatment. This county office did not fund half-way house services or long-term care due to inadequate funds. We provided the standard detoxification of 3-5 days and 14 days of rehabilitation and then either intensive outpatient treatment or outpatient treatment. Treatment providers rely very heavily on the support groups and community support as part of the recovery process.

\*\*\*\*\*UP-TO-DATE and state of the art training and effective program models need to be developed to meet the demands of changing drug trends, changing populations and treatment opportunities.

## ***DID YOU KNOW . . . . .***

One out of four Venango County sixth graders have tried alcohol

One out of two Venango County eighth graders have tried alcohol

One out of four of our eighth graders have been drunk

One out of two of Venango County tenth graders have been drunk

One out of five of our eighth graders have been drunk within the last thirty days

The average age Venango County students get drunk for the first time is age fourteen

Children who begin drinking alcohol before the age of fifteen are five times more likely to develop alcohol problems than those who start to drink after the age of twenty one

The minimum fine for furnishing alcohol to minors is \$1,000 and the maximum penalty is a fine of \$2,500 and one year in jail per offense.

Alcohol kills 6.5 times more youth than all other illicit drugs combined.

As parents we can help prevent underage drinking!

**I. MISSION STATEMENT**

**A. Venango County Human Services:**

To assure the safety of our customers and to preserve their families to enhance the quality of their lives.

**B. Venango County Substance Abuse Program:**

Venango County Substance Abuse Program is committed to the prevention of substance use by youth and abuse by adults and to the early identification, assessment and treatment of those experiencing problems.

**II. VENANGO COUNTY HUMAN SERVICES VISION**

To Be The Very Best We Can Be!

**III. MANAGEMENT AND SERVICES DELIVERY**

Venango County has a centralized human services operations program that includes: Substance Abuse, Area Agency on Aging, Children and Youth, Mental Health/Mental Retardation, Office of Economic Opportunity, Weatherization and Transportation.

**IV. MANAGEMENT SUBSTANCE ABUSE**

The Substance Abuse office has been operational since 1972 in Venango County. It operates as an executive commission-public entity. The staff members have many years of experience in the management, development and provision of health and human services.

**Management Staff:**

Administrator .....	Bonnie S. Summers
Secretary.....	Judith K. Wheeler
Fiscal Operations Officer I .....	Pamela J. Morris

**V. CASE MANAGEMENT UNIT**

The case management unit has been operational since 1988. The Case Management Unit is provided within the Single County Authority (SCA) or the Venango County Substance Abuse Program. Assessments for treatment are completed by case management staff and are available within seventy-two (72) hours. Walk-ins are accepted as well.

## **Assessment and Case Management Staff:**

Screening, Assessment, Resource Coordination, Information and Referral provided by:

William (Bill) Paxton  
Frank W. (Terry) Fay  
Rhonda Powell  
Sara (Sally) Szabat

1228 clients were scheduled  
763 clients were assessed at the case management unit office  
108 clients were assessed at the county jail

Ongoing client focused case management committees or meetings include:

Pre-Release Advisory Board at the county jail  
Maximizing Participation Project/Temporary Assistance to Needy Families meetings at  
the county assistance office  
Criminal Justice Advisory Board  
Mental Health/Criminal Justice Reintegration  
PACNET  
Children's Round Table  
PACDAA

Community Coalitions include:

- Focus On Our Future Collaborative Board
- Venango County Partnership To Help Pregnant Women  
Stop Smoking
- Prevention of Underage Drinking
- Together We Can Community Prevention Council
- Communities That Care
- DUI Advisory Board
- Safe Kids Coalition
- Diabetes Task Force
- Local Integrated Coordinating Council
- Venango County Fetal Alcohol Syndrome Committee
- Sex, Drugs, Rents and Raves
- Northside Association

## **VI. JAIL REINTEGRATION PROGRAM**

This program was developed with a grant from PCCD in 1993 to provide a bridge between the justice and the substance abuse services for those offenders who could benefit from intervention and treatment.

The case managers are trained in the many components of the justice system requirements and methods to serve individuals who are involved in both systems.

DUI Multiple Offenders Readiness Program, evaluation and treatment recommendation at the Venango County Prison, resource coordination to provide support and assistance during the mainstream from jail back to the community.

**VII. TOBACCO PREVENTION PROGRAM**

The Tobacco Prevention Program was developed in Venango County in May 2002 by contract between the Venango County Substance Abuse Program and the Department of Health. The contract funding is based on the Tobacco Master Settlement Funds received by the State of Pa. The county's goal for the program is to change community norms to create a healthy environment where it is not negatively impacted by tobacco products and tobacco smoke pollution. During the past five years, the community has been actively involved in meeting this goal. Emphasis has been placed on addressing the high percentage of pregnant women who smoke. The community has joined together to develop and fund a diaper incentive program along with other prevention activities.

Prevention Specialist ..... Dustin Zitterbart

**VIII. TRAININGS ATTENDED INCLUDE:**

- Adolescent
- ASAM
- Ethics/Confidentiality
- PCPC
- TB/STD/Hepatitis
- Prevention of HIV
- Problem Gambling Series
- Key Concepts in Psychological First Aid
- Addictions 101
- Sustaining Community Coalitions
- PBPS/Goals and Objectives

**IX. SUBSTANCE ABUSE SERVICE PROVIDER AGENCIES IN VENANGO COUNTY**

**1. ASSESSMENT, CASE MANAGEMENT AND TREATMENT CONNECTION:**

**Venango County Substance Abuse Program**  
 21 Seneca Street, Ste 201, PO Box 500  
 Oil City, PA 16301  
 814-678-6580

Bonnie S. Summers, Administrator

**2. OUTPATIENT:**

**Family Service and Children's Aid Society**  
 1243 Liberty Street  
 Suite 313  
 Franklin, PA 16323  
 814-432-3466

Inpatient Non-Hospital	4	27 Days	\$ 4,757
Dual Diagnosed	56	56 Days	\$ 11,760

## **XI. TOBACCO PREVENTION PROGRAM REPORT**

The Venango County Tobacco Prevention Program is administered and managed by the Substance Abuse Program. This program is funded through a contract between Venango County and the Pennsylvania Department of Health. The initial contract period was May 2002 through April 2005 and was then renewed through September of 2007.

Tobacco use begins at an average age of between 12 and 13 in Venango County. Venango County 10<sup>th</sup> grade students reported that fifty-three percent (53%) have tried cigarettes and fourteen percent (14%) are daily users. Forty-seven percent (47%) of the male students reported that they have tried smokeless tobacco and fifteen percent (15%) reported daily use. The percentage of live births with reported tobacco use during pregnancy in 2005 was thirty-two percent (32%). Our overall goal is to reduce disease, disability and death related to tobacco use. In order to complete this task, local partners and team members have come together to provide expertise, programs and services.

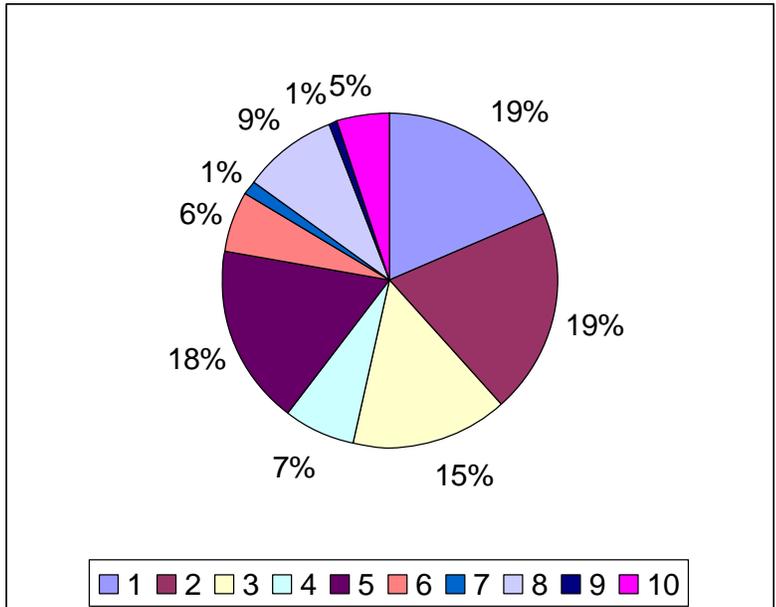

Contracts have been awarded locally in order to accomplish the thirty-six goals set by the Department of Health. Services are focused on prevention and cessation with emphasis on our youth.

- Family Service and Children's Aid Society - Activities were provided that met deliverables under Community Programs, Statewide Programs, School Program and Cessation. Tobacco Education Group (TEG), a cessation and education program for teens was provided to 26 students. Freedom From Smoking, an adult cessation program was facilitated three times to a total of 41 participants. BUSTED!, Pennsylvania's youth anti-tobacco movement, was coordinated. Activities included: resource tables, presentations, a sit-in, a summer camp, 1 regional meeting, 1 countywide meeting, 15 school meetings, and 2 Board of Youth Advisors (BOYA) meetings. Nine members also attended Youth Quest 2007 at the State Capitol in Harrisburg and had the opportunity to meet with Representative Scott Hutchinson.
- City of Oil City - The Oil City Police Department provided compliance checks of all accessible tobacco retailers in Venango County. A total of 165 checks were conducted at 57 stores with only 14 resulting in citations.
- UPMC Northwest - Cessation and Nicotine Replacement Therapy (NRT) programs were coordinated. Six Freedom From Smoking programs were held at UPMC Northwest Seneca Place. Three of these programs were facilitated by UPMC Northwest to a total of 68 adults. NRT was provided to 65 county residents who did not have insurance coverage. A total of 97 one month prescriptions were provided.
- Oil City Area School District - Materials were supplied for DARE, Teens Against Tobacco Use (TATU), Kick Butts Day Carnival, and numerous other tobacco prevention school activities.
- Cranberry Area School District - Workbooks were supplied for Project TNT.
- Youth Alternatives of Oil City - Not On Tobacco (NOT), a cessation program for teens was provided.
